

## Appendix D:

### Vehicle Maintenance Standard

At this time, HI is considering rental vehicles without fuel with driver, therefore the Service Provider will provide 1. the prices for rental vehicles in the columns Daily/Monthly on an 'all inclusive' rate, **except fuel**. Costs must include car, taxes, government levies, third party insurance, driver salary & benefits, cost of repair and maintenance...and any other cost associated with the running of the vehicle.

The provided vehicles must be in a condition to consume the below-mentioned mileage for each type of vehicle, and any exceeding consumption of fuel will be adjusted/deducted from the weekly/monthly rent for vehicles:

Type	Type 1: Sport Utility Vehicle (SUV)	Type 2: Double Cabin Pick-Up	Type 3: City Car (Sedan)	Type 4: Minivan (full size MPV)	Type 5: Mini Truck/Coaster (3 Ton or Above)
Maximum fuel consumption	Petrol 6 L to 8L and Diesel 5 to 7/ 100 km	Petrol 11 to 13 L and Diesel 4 to 6L/100 km	Petrol 6 to 8L & Diesel 4.5 to 6.5 L/ 100 km	Petrol 10 to 13L & Diesel 9 to 11L/ 100 km	18 litres / 100 km

The company will also mention the number of vehicles fully owned per model/year and currently stationed in each required location.

#### Precondition:

In order to be awarded a lot, the company will need to agree to hire local drivers (partially or in full) from the relevant province (KP, Sindh, Baluchistan, Punjab, AJK and Islamabad...) to facilitate integration of drivers and also for local knowledge of areas, language...

All drivers must undergo an eye test before vetting.

HI reserves the right to inspect the cars before they are accepted in the pool of rental cars. The owner will ensure that all cars are in good mechanical condition before being assigned to HI and notably: braking system (brake pads or drums are not worn, brake fluid levels are OK, master cylinder in good order...), tyres are not worn out, suspensions are in good order, steering is not shaking (steering damper and tie rods in good order), gearbox in good condition, cooling system in good condition (radiator in good condition, hoses are not cracked or damaged, belt is fine, ...)
